

Center for Cancer Research

Clinical Investigator Development Program

Application Deadline:
September 30, 2018

Program Starts July 1, 2019

Are you a board-eligible or board-certified physician interested in dedicating your career to clinical research?

Are you looking to transition from a mentored position to an independent investigator in laboratory-based or patient-oriented research?

Consider the Clinical Investigator Development Program at the National Cancer Institute's Center for Cancer Research. This highly competitive program offers:

- Funding that supports innovative, high-impact bench-to-bedside research
- Competitive salary and loan repayment opportunities
- Opportunity to serve as principal investigator on clinical trials
- Access to the largest hospital in the world devoted exclusively to clinical research
- Extensive shared research resources
- Access to a broad range of scientific and clinical expertise and cutting-edge medical technologies

Who We Are

The Center for Cancer Research comprises nearly 250 teams conducting basic, translational and clinical research in the NCI intramural program — an environment supporting innovative science aimed at improving human health. CCR's clinical program is housed at the NIH Clinical Center — the world's largest hospital dedicated to clinical research. For more information about CCR and its programs, visit ccr.cancer.gov.

HOW TO APPLY

Apply via the Positions at NIH Portal: <https://irp-positions.nih.gov/job/CIDP2018>

Submission is open June 1 – September 30, 2018
